Who is A Plus Aluminium?

A Plus Aluminium is renowned for its experience and expertise as a trade fabricator and supplier of quality aluminium products. Over 35 years we have evolved from a manufacturer of domestic windows into one of the country's leading aluminium fabricators, supplying residential and commercial aluminium products for the fenestration sector.

We offer a range of aluminium systems in glazed and unglazed options, complemented by tried and tested system approved hardware. All our products are fabricated to your specification, and we provide support every step of the process, from quote through to delivery. We stock a full range of profiles and components at our factories in Watford and Bedfordshire. Competitively priced, each order is confirmed with a reliable lead time so you can schedule your installation with confidence.

Investment & Innovation

Through investment and innovation, we offer the latest energy-saving, high performance and quality windows and doors. We constantly strive to stay ahead of the market and as such, commit to research and development with our supply partners. Our latest innovation, a Flush Casement window is in response to the consumer demand for an contemporary window. Significant machinery investment ensures we have continuity of capacity.

Customer Partnerships

As a trade fabricator and supplier of aluminium products, we understand the importance of partnering with a business that can provide both product and service. With our specialist team of friendly and experienced advisors and technicians we work with you to get the job done; advising on installation, specification and thermal calculations, and where required, arranging site visits. We are proud of our long-standing customer relationships that are the foundation of our business.

High Quality Manufacturing

We are renowned for manufacturing a high-quality aluminium product with professional standards and service levels. This is supported by our commitment to continuous improvement through certification and accreditations. All our products are CE marked and manufactured to ISO 9001 and independent UKAS accreditation. Additionally we hold our own Secured by Design license. Under the WER scheme, our aluminium windows can be A+ to C rated depending on your choice of glazing.

Residential Product Range

As a trade-only fabricator we develop our own products including a contemporary window and doors range alongside our popular bi-folding doors. Our latest addition being a flush casement window providing you with even more opportunities.

Windows

We offer a wide range of thermally efficient window styles, sizes and colours to complement traditional, contemporary and heritage properties. Available in a choice of aluminium systems with a chamfered or sculptured finish. Newly introduced is our flush casement, ideal for residential applications looking for something unique and a little different.

Doors

One of the most extensive door offerings to the trade with a choice of sliding, bi-folding, and residential and commercial entrance doors. We offer products to suit traditional, heritage and contemporary properties including flush entrance doors and large pane sliders. Single and dual colour bi-folding doors are stocked in white, black and grey with the full RAL colour range also available. Glazing and hardware options complete our wide offer.

Roof Lights, Lanterns & Conservatories

Our multi-system range enables us to offer a wide range of roof products. A conservatory roof from A Plus Aluminium, made to your specification, allows you to install with confidence. We offer both lanterns and roof lights to satisfy all your roofing requirements.
