

PLUSLIGHT

As one of the leading aluminium fabricators in the UK, A Plus have always been at the forefront of innovation and product offering to the fenestration market and the PlusLight strengthens this position.

PlusLight rooflights are the ideal product for creating light, bright and airy residential spaces. It's also perfect for retrofitting flat rooflights in commercial properties.

Value engineered for straightforward manufacturing and fitting, the simple aluminium frame offers fantastic thermal performance properties.

The clean lines offer a modern architectural, flush finish that is ideal for both new-build and retrofit projects.

The PlusLight flat rooflight has a single, slimline profile and a mitred cut with mechanically cleated corners. Double and triple glazing options are available and a fully bonded glazing process offers impressive strength and high levels

of thermal efficiency. The system is stocked in RAL 7016 and is available in any standard RAL colour.

For commercial buildings, PlusLight rooflight is perfect for retrofitting old skylights or introducing natural light to offices, schools, colleges and retail properties.
